

Jekyll Island Golf Club

Find your favorite course.

The history, the challenges, the serenity and the courses – these are the things that go into making golf “the greatest game there is.” Jekyll Island has a tradition of inspiring some of golf’s greatest stories and living up to expectations.

In 1898, members of the Jekyll Island Club created the island’s first golf course. Our island has been a heralded golf destination ever since, attracting such acclaimed designers as Donald Ross, Walter Travis and Joe Lee – as well as players from around the world.

Each course is a masterpiece. Imagine playing through some of Jekyll Island’s most pristine lakes, marshes and forests. There are very few man-made obstructions here. But you will have to navigate the island’s alligators, osprey and deer.

Sixty-three holes. Four breathtaking courses. Georgia’s largest public golf resort – known for true Southern hospitality and legendary landscapes.
